f. Finale Teams are paired using a randomizing computer system.

g. Substitution scenarios on Finale day:

1. Elite

a. When an even number of players is absent, the remaining players, the players whose partners are absent, are paired together by random draw to create (a) new team(s). The missing team(s) is converted to (a) bye(s). Then, the newly formed team(s) and the missing team(s) is placed onto the bracket positions by random draw.

b. When an odd number of players is absent, the highest ranked player from the Master Finale is moved up to compete in the Elite Finale. When only one team is involved, the Master player is placed on that team. When more than one team is involved, the remaining players, the players whose partners are absent, and the Master player; are all paired by random draw to create new teams. The missing teams are converted to byes. Then, the newly formed teams and the missing teams is placed onto the bracket positions by random draw.

2. Master

a. When an even number of players is absent, the remaining players, the players whose partners are absent, are paired together by random draw to create (a) new team(s). The missing team(s) is converted to (a) bye(s). Then, the newly formed team(s) and the missing team(s) is placed onto the bracket positions by random draw.

b. When an odd number of players is absent, the next ranked player in line for the Master is moved up to compete in the Finale. When only one team is involved, the sub player is placed on that team. When more than one team is involved, the remaining players, the players whose partners are absent, and the sub player; are all paired by random draw to create new teams. The missing teams are converted to byes. Then, the newly formed teams and the missing teams is placed onto the bracket positions by random draw.

2. Entry & Greens fees are pre-paid at registration using PayPal services linked to each player account.
3. Registration for doubles & triples opens at 10:30am CST August 3, 2020. Registration closes when brackets are full or at 9:00am CST September 21, 2020. Registration for Doubles & Triples is first come first served. Do not wait to sign up or YOU WILL MISS OUT.
4. Registration for Finale's opens September 3, 2020 at 10:30am CST and closes September 21, 2020 at 9:00am CST. Both Elite & Master Finale registrations MUST be complete by 9am CST September 21, 2020.
5. Except for verifiable emergencies, there are no refunds or changes allowed, for any paid entry. Once paid, entry fees are non-transferable and non-refundable. An entry fee cannot be transferred to another day, event or player. Once registered Qualifier, Doubles, Triples, CSI and Finales entries cannot

be moved to another day or time. An entry cannot be cancelled or refunded unless a verifiable emergency.

General Information

1. PPD Player Ratings: PPD posts the highest known player rating for each player. A player rating is determined by multiplying a player's bk (best known) mpr by ten (10) and adding their best bk ppd. Additionally, a comparison of PPD and MPR are done to ensure both numbers are within a normally expected percentile of each other. If PPD and MPR are not within 13%, that players lower # is raised to be within 13% of the higher number. A new calculation for PR is done with the adjustment. This new PR becomes the players best known stat to use.

a. A player's current bk statistic comes from one of three sources:

1) LEAGUE: To establish a league PPD or MPR a player must compete 4 weeks in a league. Additionally, a player's PPD and MPR is determined by the highest PPD or MPR derived from all eligible leagues participated in during the most recent TOC league-year in which the player participated in at least one eligible league.

2) TOURNAMENT: A tournament PPD or MPR average is established when a player has thrown a minimum of 120 darts of 1 game type, then up to their last 500 darts in X01 and cricket during any PPD major tournament competition. Tournament statistics for each player are up to the last 500 darts thrown for each game type with the older darts thrown purged from their averages.

3) DRT: A DRT PPD or MPR average is established when a player has thrown a minimum of 120 darts of 1 game type, then up to their last 500 darts in X01 and cricket during any PPD Daily Remote Tournament competition. Tournament statistics for each player are up to the last 500 darts thrown for each game type with the older darts thrown purged from their averages.

b. Combined Player Ratings (CPR): For Capped Events = the PRs of all players on a team added together: For "Capped events", all teams must fit under the cap when registering and at time of flighting. As team's register for the TOC, and for those that register very close to the CPR cap, the team must ensure they remain under the CPR cap at the time of flighting, which occurs at close of registration. Keep in mind other tournament and league data occurs during the interim, which may cause an individual PR to increase, causing the team to exceed the CPR cap. Substituting is allowed. Those close to the CPR cap at registration should check individual PRs throughout registration and plan for a substitute when necessary. Teams found over the cap at close of registration are given an option to modify their team or to be refunded entry fee and removed from the event.

2. PAYOUT INFORMATION: TOC winnings October 3-6 are paid via check at TOC.

a. Checks are cashed twice daily: 11 pm to 2 pm and 4 pm to 6 pm.

b. The following positions are provided at the photo booth after a team photo is taken:

- Top 3 in Doubles and Triples

- Top 2 in CSI
- Top 12 in the Men's Elite Finale
- Top 6 in the Women's Elite Finale
- Top 3 in Master Finale

Photo Booth is open daily from 1:30pm – 5:30pm & 9:30pm – End of Day

NOTE: Checks greater than \$999 are NOT cashed onsite. There is NO check cashing on Wednesday, Finale day. All Finale Day payouts are sent via PayPal at the completion of all events.

3. Using subs for Doubles or Triples Event: Subs are allowed in the Doubles and Triples contest. A substitute player of equal or lesser skill (if in a capped event) is required to ensure the team remains under the cap and will fit in the same flight when substitution is made after flighting is complete - near the time of the event. The player(s) involved in the substitution are required to contact PPD staff ASAP. All substitutions meeting these criteria is approved upon confirmation of the substitute being at a skill level that results in the team remaining under the cap and/or in the same flight (when applicable). No refunds are given unless verifiable emergency.

4. Added Matches, Corking Instructions, Event Formats and League Codes – Please note: the following information is for EVERY EVENT at the TOC and can be found posted on table tents throughout the tournament hall and on the bracket.

a. Added games for Qualifiers and ancillary events, on the Winner's Side:

- Round 4, the four (4) undefeated teams will play race to three (3) for 16 team brackets
- Round 4, the four (4) undefeated teams will play race to four (4) for 32 and 64 team brackets
- Round 5, the two (2) undefeated teams will play race to five (5) for 32 and 64 team brackets
- Championship matches revert to race to two (2).

b. Corking: Corking must occur prior to a match having aged more than 10 minutes. The team on the top of any match, as seen on the bracket, corks first. Each team may designate a player to cork. The cork is one dart each, closest dart to the bullseye wins. When a tie occurs, remove the darts and cork again. When the first dart is dead center it is removed to allow the opponent a chance to tie.

c. MATCH FORMAT CHANGE DISCLAIMER: PPD reserves the right to adjust the game format on the Last Chance side of all Triples events if a bracket is not down to the final four (4) teams by 3:00 pm to one game of 701 to prevent delays in the evening event brackets.

d. Player shooting order: The "League feature" is used for all tournament games. Player shooting order is selected in the league set-up for each match played in the event prior to the start of each match. Shooting order is determined by the players on a team at that time. Once a game has been started the game must be completed with the shooting order selected unless all

players on both teams agree there was a mistake in the game set-up, in which case PPD officials will re-set the machine.

e. Cricket Reminder: all Cricket games cut off at 20 rounds! Be aware of this when determining game strategy.

f. Practice darts between matches: Players may throw practice darts prior to a match being posted or within 10 minutes of a match post time. Practice darts thrown after a match-post time has aged ten (10) minutes is a match delay. The penalty for this type of match delay is loss of first game for both teams when the match format is more than one game. If the match only has one game and there is NOT a match waiting for the winner of the match, the game is changed to one game of 701. If the match only has one game and there is a match waiting for the winner of the match, both teams are eliminated from the bracket.

5. Match Scoring, CompuSport, Shot-clock in use, Practice darts, Delay of match penalty scenarios:

a. Use of CompuSport "Scorekeeper" feature is mandatory in all PPD tournaments. Players may load the Compusport app on their phone, I-pad, laptop pc etc. Each player must establish a CompuSport account, turn on "Notifications" and "Scorekeeper" features. All teams must have, at least, one person capable of scoring matches using the "Scorekeeper" feature.

b. A thirty (30) second shot-clock is used to prevent match delays in all PPD tournaments including TOC.

c. The winning team of each match uses Scorekeeper to score the match win. To enable Tournament Staff to easily monitor scoring timeliness, the match is to be scored:

- i. Within 90 seconds of a match win,
- ii. Before the machine automatically cycles out of the "match-ending game's win screen",
- iii. Before manually exiting out of the "match-ending game's win screen",
- iv. Before leaving the immediate area of the dart board.

d. This scoring rule applies to all matches. Failure to score a match win, as described herein, will result in an automatic match loss for the winning team when another match is waiting for either team. The losing team will score the match win.

e. All matches are timestamped on the bracket. First round match-timestamps show event start/forfeit time. All subsequent round match-timestamps are generated at the time the match posted onto the bracket, which occurs at the time the second team in the match became available, upon having scored their previous round's match win.

f. All first round matches are to begin prior to the event's posted forfeit time.

g. All subsequent rounds matches are to begin within ten (10) minutes of "post time" as found on the CompuSport bracket.

h. When Officials are informed of an absent opponent or opposing player by a team in a posted match aging at ten (10) minutes:

- i. The team that informed the officials, that is on hand, is awarded the cork “win”. If opponents are not present at 12 minutes past match post time, the team present is directed to start the first game of the match.
 - ii. The shot-clock will cycle through, passing the missing player(s), until the missing player(s) arrive, at which time, the player(s) may join the game/match.
 - iii. When a missing team or player does not arrive before the end of a game, the next game (where applicable) of the match is started immediately. Again, allowing the shot-clock to cycle through, passing the missing player(s) until the game and or the entire match is complete.
- i. When Officials otherwise become aware of a match delay, aged at ten (10) minutes or more:
 - i. Both teams lose the first game of the match if at least one team is on hand and when the match format is more than one game.
 - ii. If the delayed match consists of just one game and there is NOT another match waiting for the winner of the delayed match, the game is changed to one game of 701.
 - iii. If the delayed match consists of just one game and there IS a match waiting for the winner of the delayed match, both teams are eliminated from the bracket.
 - iv. The team that is on hand is awarded the cork “win” and directed to start the first game of the now “shortened” match.
 - a. The shot-clock will cycle through, passing the missing player(s), until the missing player(s) arrive, at which time, the player(s) may join the game/match.
 - b. When a missing team or player does not arrive before the end of a game, the next game (when applicable) of the match is started immediately. Again, allowing the shot-clock to cycle through, passing the missing player(s) until the game and or the entire match is complete.
- j. Once a match has started, players are NOT TO LEAVE THE BOARD or delay starting each subsequent game of the match.
 - 1. Breaks are not allowed during a match.
 - 2. Each subsequent game during a match is to start immediately following the end of the previous game.
 - 3. Leaving the board during a match will result in probable loss of the current game, and possibly the match, because the shot-clock passes missing player(s) throughout the game and, when necessary, during each game of the remainder of the match.
 - 4. A missing player may rejoin a game upon their return to the board.
 - 5. When a game ends with a missing player, the next game is to start immediately and so on until the match is complete.
 - 6. The shot-clock is not to be paused for any reason other than to apply the “Shooters Advantage” to resolve a miss-scored dart. Any other use of the back-up button during a

match is circumventing the shot-clock, is an illegal match-delay and results in forfeit of game or match penalty for the offending team.

k. Practice darts or any other cause of a match delay:

1. Players may only practice prior to a match being posted or within ten (10) minutes following a match post time.
2. Practice darts thrown after a match-post time has aged ten (10) minutes, or more, is a match delay.
3. The penalty for match delay is loss of first game for both teams when the match format is more than one game.
4. If the delayed match consists of just one game and there is NOT a match waiting for the winner of the match, the game is changed to one game of 701.
5. If the delayed match consists of just one game and there IS a match waiting for the winner of the match, both teams are eliminated from the bracket.

l. Freeze rule: A player may not take a game out if their partner's score is higher than the combined score of the two opposing players. If a player's partner's score is equal to or less than the combined score of the two opposing players, that player may take the game out. If a player reaches zero when he/she is "frozen", the win is credited to the opposing team.

m. The Shooters Advantage: A dart that sticks in a mark, but does not register that mark, can be manually scored. A dart that "flights" a beneficial mark on the way in, but sticks elsewhere, is not manually unscored. To correct a dart, press the back-up arrow button as needed. This rule can be applied by the players involved when both teams agree. If there's a disagreement about what to do, stop the match, leave all darts exactly as thrown and summon an official. An official will verify the score and or re-score a dart. This rule is not to be hyper-technically applied. Meaning, if, for any reason, a player inadvertently pulls a miss-scored dart prior to having noticed a scoring problem, but players on both teams agree a dart should be re-scored, the score can still be corrected when both teams agree.

n. Age Requirements for Participants and Guests:

- i. Players 18 or older may participate in the ancillary doubles and triples events.
- ii. Players between the ages of 16 and 18 whose stats, including league games played, meet the standards of adult Qualifier eligibility may participate in the ancillary doubles and triples events provided they are pre-approved by PPD prior to registering for an event.
- iii. Players participating in the Qualifiers, special invitational events and Finales must be 21 or older.
- iv. Children under the age of 13 ARE NOT ALLOWED in the tournament hall at all.
- v. Children 14 to 18 must be in the presence of a responsible, non-drinking adult.

o. Player Etiquette, Good Sportsmanship and Ethics: Each player is required to sign a “Code of Conduct” during the registration process. In signing this document each player agrees to conduct themselves according to the Code. Penalties are applied for failure to uphold the Code of Conduct. Misguided competitiveness is not an excuse. Drinking is not an excuse.

- Do not delay a match for any reason.
- Loitering/drinking/tailgating in the parking lot is prohibited. Violators are subject to ejection from the tournament and/or future tournament privileges.
- Absolutely NO OUTSIDE FOOD or DRINKS permitted! Illegal items are confiscated, discarded and penalties apply.

p. All Rules are meant to provide a foundation for an enjoyable experience playing darts. Never use a rule out of the context for which it was written, in doing so you may cause more problems than the rule was originally meant to help prevent. Never allow misplaced competitiveness to over shadow common sense and good sportsmanship. THROW DARTS, RELAX AND HAVE FUN!!!!

q. PPD officials do not tolerate poor sportsmanship or unethical conduct! Negative, aggressive or abusive behavior, of any kind, is penalized. PPD reserves the right to address misconduct once reported stemming from any darting activity including but not limited to: tournament play, league match play or any other sanctioned league function. Bad behavior will result in disciplinary action and/or expulsion from the PPD.

r. Dress Code is in effect at TOC & applies to EVERYONE ENTERING THE TOURNAMENT HALL INCLUDING SPECTATORS. For details visit www.dartstoc.com & choose 2020 TOC Dress Code.
